DETAILED ACTION

Reasons for Allowance

1. Claims 1, 3 & 4 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Claim 1 is allowable because the prior art of record does not teach or fairly suggest a drive circuit for controlling a switching device ON/OFF, comprising an ON-pulse retention means that retains the drive circuit output ON when the gate terminal voltage detected by the gate voltage detection means exceeds a specified value, and a gate voltage clamp means that clamps the gate voltage of the switching device wherein the gate voltage clamp means is operated by an output signal of the ON-pulse retention means.

Applicant has amended Claim 1 to include the subject matter of canceled Claim 2, which was previously designated as being allowable if rewritten to include all of the limitations of the base Claim 1. As such, Claim 1 is now allowable for reasons presented in the previous Office Action.

4. Claims 3 & 4 are allowable as they depend from Claim 1, which is also allowable.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
